PulseIQ company health scorecard

Sep 2026

Zenith Nova Technologies (fictional) · 441 people at month end · 8 on target · 0 watch · 0 off target

Revenue M16

₹8.06 Cr

● On target

Target ≥ ₹7.15 Cr

vs last month ▼ -₹8.6 L

Is the company earning? Everything else is paid out of it.

→ Details

Operating margin M18

18.6%

● On target

Target ≥ 18.3%

vs last month ▼ -8.6 pts

Revenue that costs more than it brings in is not growth.

→ Details

Payroll cost vs budget M09

-1.1%

● On target

Target at or under budget

vs last month ▲ +0.7 pts

Payroll is the biggest cost (over 80% of expenses); an overspend moves profit at once.

→ Details

Overdue receivables M21

₹2.71 Cr

● On target

Target ≤ ₹3.05 Cr

vs last month ▼ -₹8.3 L

Profit is not cash. Money past its due date is the first sign of a cash squeeze.

→ Details

Attendance rate M13

95.2%

● On target

Target ≥ 94.0%

vs last month ▲ +0.9 pts

Delivery capacity: people present on the days they are scheduled.

→ Details

Attrition rate (monthly) M04

0.7%

● On target

Target ≤ 1.0%

vs last month ▲ +0.2 pts

Losing people costs hiring, ramp-up time and know-how.

→ Details

Overtime share M11

0.35%

● On target

Target ≤ 1.21%

vs last month ▲ +0.01 pts

Early warning of overload, and of cost running outside plan.

→ Details

Task completion rate M22

85.7%

● On target

Target ≥ 80.0%

vs last month ▼ -0.2 pts

Are the teams actually finishing what they plan? The only delivery measure.

→ Details

Status rule: green = on the good side of target; amber = within tolerance on the bad side; red = outside tolerance; open the table below for each KPI's target source and tolerance. Revenue, margin and overdue receivables have no target in kpi_targets, so they are judged against the average of the previous 12 months and marked provisional. Fictional training data. Cut-off 30 Sep 2026.
